INDEX OF SUBJECTS

Agricultural insect pests of the tropics and their control, by D. Hill, reviewed by R. A. Lever, 96

Agricultural systems, ed. by C. R. W. Spedding, reviewed by C. C. Webster, 431

Applications de la télédétection à l'étude de la biosphère, by C. M. and M. C. Girard, reviewed by D. M. Carroll, 95

Arachis hypogea, see Groundnut

Bananas, ureaform as a nitrogen fertilizer (Hadas, Peled and Kafkafi), 121

Brassica oleracea L. var Botrytis, *see* Cauliflower

Brevicoryne brassicae, control on Indian rape with soil-applied insecticides (Hameed, Adlakha and Giamzo), 81

Camellia sinensis, *see* Tea

Capsicum annum, *see* Pepper

Cassava, characteristics of high yielding varieties (Cock), 135

Cassava, leaf fall in (Rosas, Cock and Sandoval), 395

Cassava (*Manihot esculenta*), effects of cycocel on crop plants in Sierra Leone. II. (Das Gupta), 321

Cassava (*Manihot esculenta*), storage of fresh. I. Post-harvest deterioration and its control (Booth), 103

Cauliflower (*Brassica oleracea* L. var Botrytis), effect of molybdenum in sand nutrient culture (Singh and Rajput), 195

Cotton, groundnuts, kenaf and sesame, components of error in field experiments in the Central Sudan rainlands. I. Field and statistical methods; increasing precision by replication and its cost. II. Variation in plant measurements through the season and a discussion of surface drainage as a source of variation (Hack), 209, 225

Cotton, trials of spraying and cultural practices in Uganda. II. Use of extended protection (Davies), 163

Cowpea genotypes, effects of spacing in Papua New Guinea (Erskine and Khan), 401

Cowpea (*Vigna unguiculata*), effect of root temperature on growth and seed yield in (Minchin, Huxley and Summerfield), 279

Cowpea (*Vigna unguiculata*), integrated field and glasshouse screening for environmental sensitivity (Summerfield, Wien and Minchin), 241

Crop nutrition (and exchangeable cation ratios) effects of fertilizers in Northern Nigeria (Jones and Stockinger), 49

Cycocel, effects on crop plants in Sierra Leone. II. Cassava (*Manihot esculenta*) (Das Gupta), 321

Dehydration, mechanical, of potato tubers (Carruthers and Pirie), 329

Eggplants (*Solanum melongena*), effects of soil temperature on the development of young (Rylski, Nothmann and Spiegelman), 273

Environment and the experimental control of plant growth, by R. J. Downs and H. Hellmers, reviewed by G. N. Thorne, 430

Evolutionary studies in world crops: diversity and change in the Indian Subcontinent, ed. by Sir Joseph Hutchinson, reviewed by Barbara Pickersgill, 95

Exchangeable cation ratios and crop nutrition, effects of fertilizers in Northern Nigeria (Jones and Stockinger), 49

Experimental error in perennial crops, reduction using adjustment by neighbouring plots (Pearce and Moore), 267

Farm tractors in colour, by Michael Williams, reviewed by T. C. D. Manby, 319

Fertilizers, effects on exchangeable cation ratios and crop nutrition in Northern Nigeria (Jones and Stockinger), 49

Field trials, the conduct of 'post-mortems' on concluded (Pearce), 151

Fluid drill, hand-operated, for small plot experiments (Lickorish and Darby), 299

Fodder beet (dryland), trials in Cyprus (Hadjichristodoulou), 61

Food protein sources, ed. by N. W. Pirie, reviewed by R. L. M. Synge, 431

Forage (irrigated), production under extreme arid zone conditions in Saudi Arabia (Farnworth), 177

Groundnut (*Arachis hypogea*), ^{45}calcium absorption by two cultivars (Beringer and Taha), 1

Groundnuts, chemical weed control in the Kenana area of the Sudan (Hamdoun), 113

Groundnuts, *see* 'Cotton, groundnuts, kenaf . . .' (Hack), 209, 225

Heliothis armigera, varietal responses of grain sorghum to infestation by (Wilson), 257
Heterosis, manifestations in grain sorghum (Kambal and Abu-el-Gasim), 33
High quality protein maize. Proceedings of the CIMMYT-Purdue Symposium on Protein Quality in Maize, reviewed by R. E. Gunn, 429

Insecticides, *see* Rape (Indian)
Irrigated forage production under extreme arid zone conditions in Saudi Arabia (Farnworth), 177

Kenaf, *see* 'Cotton, groundnuts, kenaf . . .' (Hack), 209, 225

Legume establishment and growth, effects of lime and lime-pelleted seed in South Brazil (Elkins, Olsen and Gower), 201
Lime and lime-pelleted seed, effects on legume establishment and growth in South Brazil (Elkins, Olsen and Gower), 201

Maize, effects of grain formation on dry matter distribution and forage quality in (Bunting), 417
Maize, population × environment interactions in trials and their implications on testing procedures (Obilana and Fatunla), 379
Manihot esculenta, *see* Cassava
Manurial (and rotational) trial, long-term, in Uganda (McWalter and Wimble), 305
Micronutrients, effect on pepper (*Capsicum annum*) grown in peat soil under greenhouse and field conditions (Navrot and Levin), 129
Molybdenum, effect on cauliflower (*Brassica oleracea* L. var Botrytis) in sand nutrient culture (Singh and Rajput), 195

Nitrate leaching (and water movement) in a Nigerian soil (Jones), 69
Nitrogen fertilizers, effects on yields of proteins extracted from seven crops (Mungikar, Batra, Tekale and Joshi), 353
Nitrogen fixation by free-living-micro-organisms, ed. by W. D. P. Stewart, reviewed by E. W. Russell, 429
N(itrogen) uptake by wheat from N^{15} labelled ammonium nitrate and urea, effect of split application (Hamid and Sarwar), 189
Nutritional improvement of food legumes by breeding, ed. by M. Milner, reviewed by Watkin Williams, 319

Pearl lupins, further trials in England (Masefield), 97
Pepper (*Capsicum annum*), effect of micronutrients when grown in peat soil under greenhouse and field conditions (Navrot and Levin), 129
Potash fertilizers, effects on sweet potato in Sierra Leone (Godfrey-Sam-Aggrey), 87
Potato pulp, chemical preservation of partially dried (Lacey and Pirie), 337
Potato tubers, mechanical dehydration of (Carruthers and Pirie), 329
Proteins, crude and extractable, effects of age and season on yields from some edible plants (Fafunso and Bassir), 249
Proteins, effects of nitrogen fertilizers on yields extracted from seven crops (Mungikar, Batra, Tekale and Joshi), 353

Randomized complete block design, relative efficiency (Abou-el-Fittough), 145
Rape (Indian), control of *Brevicoryne brassicae* with soil-applied insecticides (Hameed, Adlakha and Giamzo), 81
Rice, the stability of yields in Sri Lanka (Ganashan and Whittington), 361
Rotational and manurial trial, long-term, in Uganda (McWalter and Wimble), 305

Sesame, *see* 'Cotton, groundnuts, kenaf and sesame . . .' (Hack), 209, 225
Seventy generations of selection for oil and protein in maize, ed. by J. W. Dudley, reviewed by E. S. Bunting, 208
Soils and other growth media, by A. W. Flegmann and Raymond A. T. George, reviewed by A. E. Johnston, 207
Solanum melongena, *see* Eggplants
Sorghum (grain), manifestations of heterosis (Kambal and Abu-el-Gasim), 33
Sorghum (grain), varietal responses to infestation by *Heliothis armigera* (Wilson), 257
Spraying and cultural practices, trials on cotton in Uganda. II. Use of extended protection (Davies), 163
Statforms, by H. C. Dawkins, reviewed by G. V. Dyke, 432
Sugarcane, growth and sugar accumulation. I. Percentage of sugar in relation to pattern of growth (MacColl), 369
Sweet potato cultivars, evaluation and yield, variability and quality in sub-tropical Australia (Huett), 9

Sweet potato, effects of potash fertilizers in Sierra Leone (Godfrey-Sam-Aggrey), 87
Sweet potatoes, growth and development of short and long season, in sub-tropical Australia (Huett and O'Neill), 385

Tea (*Camellia sinensis*) clones in Malawi, xylem water potential and yield of (Squire), 289
Tea, methods of bringing into bearing in relation to water status during dry weather (Carr), 341
The biology of agricultural systems, by C. R. W. Spedding, reviewed by W. Holmes, 320
Tomato, effects of plant density on yields in Western Nigeria (Adelana), 43
Trial, a long-term rotational and manurial, in Uganda (McWalter and Wimble), 305

Ureaform as a nitrogen fertilizer for bananas (Hadas, Peled and Kafkafi), 121

Vigna unguiculata, *see* Cowpea

Water movement and nitrate leaching in a Nigerian savanna soil (Jones), 69
Weeds, chemical control in groundnuts in the Kenana area of the Sudan (Hamdoun), 113
Wheat, effect of split application on N uptake from N^{15} labelled ammonium nitrate and urea (Hamid and Sarwar), 189
Wheat, genotype-environment interactions: effects of temperature on coleoptile length (Bhatt and Qualset), 17
Wheat, predicting water needs from U.S. Class A pan evaporimeter at Pantnagar, India (Lal and Sharma), 23
Wheat, relation between flag leaf, yield of grain and yield components (Chowdhry, Saleem and Alam), 411

INDEX OF AUTHORS

ABOU-EL FITTOUH, H. A. Relative efficiency of the randomized complete block design, 145
ABU-EL-GASIM, E. H., *see* KAMBAL, A. E.
ADELANA, B. O. Effects of plant density on tomato yields in Western Nigeria, 43
